Why Fluropon®?

For over 50 years, panels using Sherwin-Williams' Fluropon® coatings (made with 70% Kynar® 500/Hylar®5000 resins) have helped protect commercial, industrial, and residential buildings around the world. This high-performance fluoropolymer (PVDF) resin, with its extraordinary capability to retain color and gloss, keeps coated metal looking vibrant and appealing for decades to come.

Red Dot Products, LLC
